PROFILE

Senior Product Designer with 8+ years driving complex product initiatives across fintech, banking, and global digital products. Expert in human-centered design, product strategy, and cross-functional collaboration across multinational organizations.

Leveraging AI-native workflows — Cursor, Claude, ChatGPT — to accelerate design, research, and delivery at scale. Fluent in 5 languages. Colombian & European citizenship.

SKILLS

Design: Figma · Jitter · Adobe · Wireframing · Prototyping · Design Systems · UX Research · Usability Testing · Information Architecture · Data-driven design · Storytelling

Methods: Design Thinking · Google Sprints · Human-Centered Design · Agile / Scrum · A/B Testing · Experimentation · Strategic alignment · Stakeholder management · Leadership

AI-native workflows: Cursor & Claude — prototyping & AI-assisted delivery · ChatGPT — research synthesis & content strategy

EXPERIENCE

Huge (Mar 2025 – Present · Senior Product Designer)

- Leading product design for Google for Education — defining end-to-end design processes for content discoverability and user engagement at global scale.
- Led UX strategy for Google for Education, running A/B tests to optimize engagement, adoption, and conversion.
- Integrated AI-native tools (Cursor, Claude, ChatGPT) to accelerate prototyping, research synthesis, and design-to-development handoff.
- Collaborated closely with engineering, product, content, and visual design teams to deliver accessible, scalable web experiences aligned with Google's global standards.

Mastercard (Apr 2022 – Jan 2025 · Senior Product Designer)

- Led design strategy for payment products across LATAM & Europe, impacting 90M+ cardholders and adapting brand systems for 30+ enterprise clients.
- Designed intuitive payment flows improving user satisfaction through streamlined interactions and enhanced accessibility.
- Partnered closely with engineering and business teams from discovery to delivery, aligning UX with technical feasibility.
- Delivered scalable design for international markets, balancing local user needs with global brand consistency.

Banco de Bogotá (Jun 2017 – Apr 2022 · Product Designer)

- Drove digital transformation for one of Colombia's largest banks, reducing onboarding friction and expanding digital product adoption.
- Redesigned onboarding flows for key financial products, reducing drop-off and increasing digital product openings.
- Applied Design Thinking to align stakeholder goals with user needs across complex regulatory constraints.
- Partnered with product, engineering, and business teams to ship digital banking experiences, running A/B tests to optimize conversion.

EARLY EXPERIENCE

Imaginamos (Mar 2017 – Sep 2017 · UX Designer)

- Designed user-centric interfaces for digital clients using Design Thinking, improving navigation and engagement across web and mobile products.
- Collaborated with development teams to translate UX/UI designs and interactive prototypes into web and mobile experiences under tight delivery timelines.

Xenital, Engineering Solutions (Oct 2016 – Mar 2017 · Graphic Designer)

- Designed interfaces and layouts for engineering software, merging UX/UI principles to improve usability and information access.

Alfagres S.A. (Oct 2016 – Mar 2017 · Internship)

- Supported marketing and brand communications, conducting market research to inform strategies and strengthen competitive positioning.

Acquamarina Swimwear (Mar 2015 – Dec 2016 · Product Designer)

- Designed product collections integrating consumer trend research, contributing to brand identity growth in a competitive market.
